REMARKS

The claims of the present application have been amended to include subject matter clearly disclosed in the originally filed specification. No new matter has been added.

In the event a telephone conversation would expedite the prosecution of this application, the Examiner may reach the undersigned at (408) 505-5100. Applicants are enclosing a check to pay for the added claims. The Commissioner is authorized to charge any additional fees or credit any overpayment to Deposit Account No. 50-1351 (Order No. NAI1P065_01.307.01).

Respectfully submitted,
Silicon Valley IP Group, LLC.

APPENDIX A

25. (New) A system for analyzing a network and detecting intrusions in the network, comprising:

a plurality of information collectors coupled to a plurality of computers interconnected via a network, each information collector adapted to collect information;

at least one information collector manager coupled to the information collectors for collecting the information from the information collectors, and detecting intrusions in the network; and

a user interface for analyzing an output of the information collector manager.

26. (New) The system as recited in claim 25, wherein the information relates to wireless network traffic.

27. (New) A method for analyzing a network and detecting intrusions in the network, comprising:

collecting information relating to a plurality of computers utilizing a plurality of information collectors coupled to the computers via a network;

collecting the information from the information collectors utilizing at least one information collector manager coupled to the information collectors; and

detecting intrusions in the network based on an analysis utilizing the information;

wherein security actions are capable of being carried out based on the analysis.

28. (New) The method as recited in claim 27, wherein the information relates to wireless network traffic.
